

IPL Data Analysis

Structured Summary Report

Based on the ipl analysis.pbix Power BI Dashboard

*Prepared by: **Ritik Dixit***

1. Introduction

This report summarizes the structure and insights of the IPL Data Analysis dashboard built in Power BI. The dashboard is organized across six pages — Cover Page, Batting Insights, Bowling Insights, Team & Toss Analysis, Venue Analysis, and a Team Detail drill-through page — covering player performance, team success, toss impact, and venue trends across IPL seasons.

2. Dashboard Structure

Page	Visuals Included
Cover Page	Title/intro text, slicers, project image
Batting Insights	Runs trend (stacked area chart), Most Sixes by Team (bar chart), Most Fours/Runs charts, batting distribution (pie chart)
Bowling Insights	Wickets trend (area chart), Top Wicket-Takers (bar/column charts), Zero-wicket bowlers, Top Fielders
Team & Toss Analysis	Match Wins by Teams (bar chart), KPI card, Toss Decision by Team (bat vs field), Overall Toss Decisions (donut chart)
Venue Analysis	Matches Hosted by City (map), venue-wise wins (bar chart)
Team Detail (drill-through)	Team-specific KPI card, ribbon chart, season-wise trend, team image

3. Data & Methodology

The dashboard is built on the matches and deliveries datasets, linked via matches[id] → deliveries[match_id]. Data cleaning included standardizing team names across seasons, trimming text fields, and correcting column data types. Custom DAX measures were created for Total Runs, Total Wickets, Total Sixes, Total Fours, Economy Rate, Match Wins, and Toss Decision Count, which drive every visual across the report.

4. Key Insights

4.1 Batting Insights

- Highest run scorer overall: Suresh Raina with 4545 runs.
- Team with the most sixes Royal Challengers Bangalore with 935 sixes.
- Team/player with the most fours: G Gambhir with 484 fours.
- Season with the highest run-scoring trend: 2017.

4.2 Bowling Insights

- Bowler with the most wickets: L Malinga with 154 wickets.
- Number of bowlers with zero recorded wickets: No Bowler.
- Best economy rate among the top wicket-takers: SL Malinga at 6.87 runs/over.
- Top fielder by catches + runouts: KD Kartik with 101 dismissals.

4.3 Team & Toss Analysis

- Most successful team overall: Mumbai Indians with 92 wins.
- Headline KPI card value: Toss Win Rate = 50.10%.
- Most common toss decision overall : Field at 57.08%.
- Team with the strongest bat-first or field-first preference : Kolkata Knight Riders prefers Field in 418.75% of tosses won.

4.4 Venue Analysis

- City that has hosted the most matches : Wankhede Stadium with 34 matches.
- Venue with the most wins for the top team : M Chinn swamy Stadium with 8 wins.

4.5 Team Detail (Drill-Through)

- Example team explored: Mumbai Indians.
- Total wins shown on the KPI card for this team: 51.08%.
- Notable season-wise trend observed : Mumbai Indians recorded their strongest performance in the 2015 season, ranking at the top based on total match wins, with performance fluctuating in surrounding seasons.
